SCHOOL BOARD.

Called Meeting to Be Held To-
night at the Usual
Place.

The Matter of Finishing the New
School Building and Other
Subjects to Come Up.

The board of education meets to-
night in called session, and a lively
time is expected. The matter of
finishing the Broadway school house
will come up, and it is that that may
prove the bone of contention.

It is understood the president will
be authorized to advertise for bids,
but the trouble will be, who will be
allowed to bid on the work. It is said
seven of the members are in favor of
allowing anyone to bid, while the
others want all competitors to reside
in Paducah.

The former claim the board has
not been treated as well as it might
by local contractors, and for this
reason are in favor of allowing every-
body who desires to bid on the work.

As is no doubt already known, the
building is to be completed in whole
or part this year, and the money re-
quired is several thousand dollars
more than will be afforded by this
year's levy. Some of the board want
to complete the work at once, and
pay the balance out of next year's
levy, while others claim this would
be illegal.

PATRIOTIC PUPILS.
Two Flags Ordered For the
Schools.

Yesterday afternoon President
Chas. Leake, for the pupils of the
high school and Miss Morgan's school,
ordered two flags that will be raised
with appropriate ceremonies when
arrive.

The money was furnished by the
pupils themselves, and the flags cost
\$12 each.

Y. W. C. T. U. Meeting Changed.

The Y. W. C. T. U. will meet in
parlor of the First Christian church
Saturday afternoon at 4 o'clock. The
state secretary, Miss Bulah Boogher,
will address the young women on their
work. Miss Boogher is unavoidably
detained this evening, hence the
change in the day from Friday to
Saturday. Please note the change,
and give this earnest young lady a
good hearing on Saturday afternoon.
All ladies cordially invited.

FOOT BADLY MASHED.

The little son of Mr. Fuller, who
works at Langstaff's, met with a
serious accident this morning. His
foot became caught in the chain on
his bicycle while riding on Tennessee
street and when Dr. Robertson was
called, it was found necessary to am-
putate two of his toes.

OREGON'S LONG VOYAGE ENDED

**Was 69 Days in Her Journey and

SPAIN MAY SUE FOR HONORABLE PEACE.

Washington, May 27.—The presi-
dent is determined to invade Porto
Rico before Cuba. This much of
the campaign may now be considered
definitely settled. All the plans of
the navy and war departments are
being rushed to that end.

As to Cuba, the plan now is to
force General Blanco to surrender
by making the blockade perfect. It
is believed Havana cannot stand a
siege of more than a month more, and
that hunger will force the city to
surrender. Should Blanco refuse
and attempt to hold out, Cuba will
be invaded, after the rainy season,
with a force of 100,000 men, who by
that time will be well trained soldiers,
and Havana will be overwhelmed,
while our big guns batter down her
sea defenses.

The first troops will go to Porto
Rico, and that, too, in very few
days.

SPANISH BOASTING.

Madrid, May 27.—All the morn-
ing papers admit that Admiral Cervera
is in Santiago harbor, but they
claim that the harbor is impregnable
and that while their fleet may not be
able to escape, that it cannot be cap-
tured. It is claimed that no ship
can enter the bay now in safety.

NAVAL MOVEMENTS.

Key West, Fla., May 27.—The
movements of the American war
vessels under the three squadron
commanders, beyond the generally
accepted fact that Commodore
Schley's squadron is now at San-
tiago, while the blockading squadron
under Commodore Watson is on
duty along the western and northern
coast of the island, are not known
with certainty.

The composition of the three
squadrons has been changed, but the
exact complement and names of the

HONORABLE PEACE.

London, May 27.—The Madrid
correspondent of the Times says:
"The dominant note of public opin-
ion here desire to find some way to
honorable peace, as Spain has nothing
to gain by an indefinite prolongation
of hostilities."

"All idea that France will inter-
vene, however, is now abandoned, and
hopes are fixed upon the possibility
that Duke Almonlover de Rio, the
new minister of foreign affairs, will
find some fitting occasion on which
to take the initiative."

HAWAIIAN ANNEXATION.

Washington, May 27.—It has been
decided by the friends of Hawaiian
annexation to tack the measure to a
war appropriation bill in the form of
an amendment. This is the only
chance to pass the bill over the de-
termined opposition of Speaker
Reed.

The European powers threaten to
make trouble if Hawaii is not annexed,
as the island is openly violating
all neutrality obligations.

DYNAMITE LAUNCHES.

Washington, May 27.—Although
the president is heartily in favor of
accepting Holland's proposition to
go to Santiago and fight Cervera
with his submarine destroyer, yet
another plan is being considered, that
of sending dynamite launches and
petroleum barges into the harbor and
destroying the Spanish fleet by fire.

ORDERS FOR SCHLEY.

Washington, May 27.—The Presi-
dent has sent orders to Commander
Schley by way of a dispatch boat
from the Haytian consulate at Port
au Prince. A reply is expected
from Schley this afternoon.

THE PRESIDENT IS CAUTIOUS.

Washington, May 27.—The Presi-
dent was today asked the direct
question if the invasion of Porto
Rico would be undertaken imme-
diately. He answered that "every-
thing is obscure until Commodore
Schley is heard from. Every effort
is being made to reach Schley."

ANOTHER SCHEME.

Washington, May 27.—The plan
of using balloons to ascertain the
location of Cervera's fleet in San-
tiago, is being favorably discussed.

Key West, May 27.—Absolutely
no news has been heard here from
Schley.

PORTO RICO NEXT.

Germany Said to Have Designs
Upon the Little Island.

Washington, May 27.—There is no
doubt that there has been a complete
reorganization of the plans of the
war and navy department since the
confirmation of the report that the
Spanish fleet is securely blockaded in
the harbor of Santiago. Commodore
Schley is to be left there to look after
Cervera. Sampson is to go to San
Juan and complete the reduction of
the fortifications.

He is to be followed by an army of
25,000 soldiers to occupy and hold
the island of Porto Rico. There
are only 13,000 Spanish soldiers there,
but the administration does
not propose to take any chances.
Spain is to be hit hard all along the
line while she is powerless to obstruct
or delay operations in the sea.

If the United States is to hold Por-
to Rico our position will be the
best possible if we have actual pos-
session when the terms of peace are
arranged. If Spain should suddenly
sue before the United States had

taken Porto Rico, it would be more
difficult to obtain title. Nothing can
be said if Porto Rico is now occu-
ped as a military measure, and when
the war is over the United States can
insist on continuous possession, mak-
ing the island answer for part of the
indemnity. Such is the argument
which prompts the government in to-
day's decision.

Germany has had an eye on Porto
Rico. It is within the possibilities
that that government might lead in a
protest if the United States, after the
war, tried to take possession of the
island without any previous action.

"Porto Rico," said one of the
president's closest advisers in sit-
ings military, "is the key to the
whole situation now. It must be
taken at once. The fall of Cuba will
quickly follow the occupation of
Porto Rico as a natural sequence. We
must take possession of the island
and hold it permanently. We can
not annex Cuba. From that we are
barred by our declaration to set up a
stable, independent government."

But no stipulation interferes with
the taking of Porto Rico. Permanent
possession of it is desirable, because
it will give us a naval base in the
West Indies which we need in view
of the early construction of the Nica-
ragua canal.

Annexation to the United States
will be welcomed by the native popu-
lation. The Porto Rican patriots
have a Junta in this country now. J.
J. Henna is at the head of it. His
principal associates are J. de M.
Carapote, Manuel Besosa and R.
H. Todd. The Porto Ricans have
raised the standard of revolt several
times, and have had the same griev-
ances against Spain that Cuba has.
But while there have been revolts
and all the spirit of revolution, there
has been very little fighting. The
island is 95 miles long and 35 miles
wide. The population is 813,000,
of which 300,000 are negroes.

Porto Rico is a little nearer the
equator than Cuba, but it has a
mountainous interior, and the climate
is the finest in the West Indies.
The troops that make up the 20,000
to 25,000 to go to Porto Rico will
draw the capital prize of this war.
The plan at present under contem-
plation is to have transports convey
the regiments now camped or about
to be camped in the vicinity of
Washington from Fortress Monroe or
some Atlantic seaport to San Juan.

M'PHERSON'S
FOURTH AND BROADWAY

THE OREGON'S LONG VOYAGE.

**Capt. Clark Says He Wondered
Where the Spaniards Were.**

Key West, May 27.—The United
States battleship Oregon arrived here
safe yesterday from Jupiter, and is
now at anchor near the Sand Key
Light.

At 10:30 a. m. Capt. Clark and
other officers came ashore and reported
all well on board and the ship in
good condition.

The Oregon left San Francisco on
March 30, arrived at Callao April 4,
left there April 7 and passed Sandy
Point on April 21, arriving at Rio
Janeiro on April 30. The ship
reached Bahia on May 8 and touched
at Barbados on May 18. At the
latter place the warship was quaran-
tined, but she was only detained one
day. She has been sixty-nine days
out from San Francisco to Key
West.

The Oregon arrived at Jupiter
Light on May 24 and communicated
with Washington.

She picked up the cruiser Marietta
and the dynamite cruiser Nietheria
between Rio Janeiro and Bahia, but
parted company with them after a
few hundred miles.

Capt. Clark said the crew of the
Oregon had suffered from heat in
passing twice through the tropics.

"All the way along," he added,
"we were wondering where the Spaniards
were, and we never ascertained
that fact until we reached here."

"Do you know now?" Capt. Clark
was asked.

"Well," he replied, "I imagine
we can make a very accurate guess."
The Oregon will remain here for
orders.

The Oregon coaled four times on
her trip—at Callao, Sandy Point,
Rio Janeiro and Barbados—and
reached here with plenty of coal and
water on board.

The first news the officers and
crew of the Oregon had of the Ma-
nila victory was at Rio Janeiro,
where Capt. Clark received a tele-
gram from Washington.

Alarming rumors met the Oregon
at every port.

At Rio Janeiro her crew heard a
report that dynamite had been found
in the coal, and at Callao the officers
were informed that plans had been
discovered to blow up the ship. All
these startling reports proved to be
groundless.

STOCK LAW.

**It Is Causing Trouble Among
the Police Just at
Present.**

**The Mayor Will Have All Loose
Stock Impounded Hereafter.
Keep Up Your Cows, Etc.**

There is much discontent among
the officials of the police department
over the failure of the stock ordinance
to benefit the city. This morning
the eight cases for allowing horses to
run at large were tried and dismissed
by Judge Sanders. The mayor was
a witness in it, too, and said he
thought it was a sure shot. This
morning the defendant permitted his
horse to run at large. The dismissal of
the case created so much discontent
that the mayor at once said he would
see that the ordinance was repealed.

The court cannot be blamed. The
ordinance makes it a violation of the
law for any one to suffer his horse or
cow to run at large inside the city.
This is construed to mean that the
city must show that he either turned
his animal out or else knew it was
out and made no effort to recover it.
In all the cases before Judge Sanders,
the defendants have sworn that they
did not turn their horse out, and did
not authorize any one else to do it,
and did not know it was out until in-
formed of it. The court could do
nothing else but dismiss the case
when the defendant swore positively
that he had nothing to do with his
horse being out, and the common-
wealth had no evidence to show that
he did.

The mayor said today that he would
at once provide for impounding all
stock found running at large, and see
if that will not end the nuisance.
Every Sunday numberless horses are
turned out to roam at will, and only
last week the mayor himself saw a
little child come near being killed by
a horse that was loose.

The police are displeased because
they have been unable to make any
of the cases in which they have sworn
out warrants stick.

SECOND ATTEMPT.

**Young Couple Determined Not
to Be Outdone By
Parents.**

**They Elope to Golconda Yester-
day, Where the Knot Was
Probably Tied.**

Mr. Roy Scott and Miss Della
Wicks, whose sensational elopement
to Metropolis and subsequent capture
was detailed in yesterday's Sun, were
not to be thus thwarted by officious
parents. They were brought back
from Metropolis yesterday afternoon
at 3 o'clock on the Cowling, under
escort of Officer French Shoemaker,
who went down on the Fowler with
the young man's relatives to intercept
them and prevent the wedding.

At 5 o'clock the young people were
again at the wharf, this time in a sur-
vey, and accompanied by three rela-
tives, who assisted them off. They
took the ferry boat and went to the
upper landing, saying they were
going to Golconda to be married.

They reached the other shore in
safety, and left for Pope county, hap-
py and determined. As there is no
way to shut them off by telegraph, or
to overtake them, it is likely that they
are by this time man and wife, and
again at home. It was their inten-
tion to return this afternoon.

The young man's father was down
at the wharf this morning making in-
quiries, and said he had no particu-
lar objection to his son marrying, but
that he would like to get his hands on
some of the young lady's relatives
who persistently assisted the couple
to get away.

ALTHOUGH Polo de Barnabe has
been invited thence by the Canadians
he has left his shadow and accom-
plices Du Bose behind him to carry on
sane business at the old stand under
a new name. How long before Du
Bose's absence will be good company
for the Canadians?

It would be well for Sampson to
destroy the batteries at Porto Rico
and an armed force of our troops oc-
cupy the island, and then let him sail
for the Canaries. This would give
the tallow and beeswax inhabitants of
the peninsula some matters to reflect
upon closer at home.

The Governor seems determined
that no military appointment which
he controls shall get away from Cen-
tral or Eastern Kentucky. It is a
pity the Governor forgets the "Pur-
chase" is a part of the state of Ken-
tucky, and overlooks many good men
in this section worthy to lead Ken-
tuckians to battle.

With the ability of the Cubans to
drive the Spanish outposts into San-
tiago—with the facilities of the Cu-
bans to obtain information—and with
the care with which they might com-
municate with Commodore Schley,
there ought to be no uncertainty as to
whether Cervera is "bottled up" in
Santiago bay. The chance of

Cervera slipping out to sea during a
night or a fog is limited.

This council could devote some of
the time they spend in fusing, in
looking after the interests of the city.
If the sprinkling of the streets was
investigated they would find that all
the principal part of the city could be
sprinkled at a very small expense to
the abutting property. The saving
in repairs alone would more than
cover the expense, besides the other
benefits derived therefrom.

THERE has no move been made to
put the streets in repair where the
sewer has been completed; it seems
this is negligence on the part of
someone whose duty it is to see after
such matters. It is had enough to
have to contend with what inconven-
iences are necessary in laying the
sewer. These matters should be at-
tended to at once and prevent the
entire city being torn up at one time.

SPAIN affects to believe Cervera
will hold out until the Cadiz fleet,
under Camara, shall come to his re-
lief. It is hoped the latter will not
be long in attempting succor. Schley
and Sampson would be only too
happy to meet the distinguished ar-
rival, and whip both Spanish fleets at
the same time, so as not to delay the
capture of the Canaries and the bom-
bardment of Cadiz, Valencia, Barcel-
lona, etc. There is not the remotest
chance of the Cadiz fleet sailing to
the West. The Spanish have too
many eggs in one basket just now.

If the council cannot get an en-
gineer that is capable of putting the
street roller in out of the weather,
and will ask Mr. Miles, the en-
gineer who managed the roller so
capably, no doubt he will put it in
the house for them. It is a case of
gross neglect to permit the machine
to stand out in the weather for a
week at a time for the want of at-
tention on the part of those who are paid
to attend to this matter. If the
Mayor is going to permit all his sub-
ordinates to run matters to suit them-
selves, there is no use of the city
having a Mayor. Better abolish the
office and save the expense.

ONE of the last official acts of the
city council preceding the present
council was the passage of a resolu-
tion asking property owners, where
possible, to tap the sewer just as fast
as completed. That act of the coun-
cil has not been rescinded by the
present council, and hence is in
force. But our city engineer, who

seems not only to be a law unto him-
self, but also unto the whole city, has
said that the sewer shall not be
tapped, and it is not, he refusing to
grant any permits. If the city coun-
cil had any nerve it would call down
the presumptuous engineer, but it
don't.

THE use of gold in the money
transactions of business is something
startling to a moss-back free and
unlimited-silverman. In fact, he is
not disposed to believe it. Never-
theless it is true that the excess of
imports of gold for the present fiscal
year is \$90,000,000, while the coin-
age of our mints is in excess of \$50,-
000,000. These give a clear gain to
our stock of gold of over \$140,000,-
000 in one year. The actual use
and payment of gold in ordinary
business is phenomenal, and at the
same time satisfactory. Even Mr.
Bryan has quit "the silver business"
and "gone for a soldier." We hope
he may not be killed nor wounded,
for we know he will come back a
smarter—a wiser man—as war will
give him a chance to appreciate
changed conditions.

CERVERA if bottled up in Santiago
bay, at least has an opportunity to
try the efficacy of the much vaunted
torpedo boat as an aid in practical
warfare. If he can find no use for
them now, it is hardly likely there
will occur within the next century
a time when such outfits will serve
a naval commander. Those boats are
the most destructive instruments in
modern warfare, if a time can be
found to use them; but the methods
adopted render them unavailable for
destructive purposes. If one of those
boats could slip out of the harbor and
fire one of her torpedoes at a ship
within fair range, it would simply
annihilate it. There is such constant
watch kept, and the little boats are
so fragile, they might soon pay the
penalty if they attempted an assault
on a battleship. Cervera, however,
has a chance to make them available,
if practicable. If not practicable
under what necessities will they ever
be of benefit as factors in war.

THE German newspapers are of
late giving much attention and dis-
cussion to the Monroe doctrine. One
cannot lay a great deal of stress on
what those papers say. They are in
continual dread of the press censor
and those who are not wedded to
king craft, have to sing the same tune
as those who are, for fear of conse-
quences. That press is not a free
press in a free land, and their views
must of necessity be taken with much
salt. There is a vast jealousy of this
country in that land. Thousands of
Germans who love to be free, have
come to the United States, and by
their energies have added to the power
and wealth of this republic. The
personal bravery and industry have
given them homes, wealth, plenty and
station in a free land, whose freedom
they help maintain. They have no
favor to ask of anyone, and no hope
higher than to transmit their freedom
to their children. This situation of
the American German is so much
higher, better, freer and nobler, than
in the old land, that envy has made
many in the fatherland hiss at the
name America.

THE German newspapers are of
late giving much attention and dis-
cussion to the Monroe doctrine. One
cannot lay a great deal of stress on
what those papers say. They are in
continual dread of the press censor
and those who are not wedded to
king craft, have to sing the same tune
as those who are, for fear of conse-
quences. That press is not a free
press in a free land, and their views
must of necessity be taken with much
salt. There is a vast jealousy of this
country in that land. Thousands of
Germans who love to be free, have
come to the United States, and by
their energies have added to the power
and wealth of this republic. The
personal bravery and industry have
given them homes, wealth, plenty and
station in a free land, whose freedom
they help maintain. They have no
favor to ask of anyone, and no hope
higher than to transmit their freedom
to their children. This situation of
the American German is so much
higher, better, freer and nobler, than
in the old land, that envy has made
many in the fatherland hiss at the
name America.

"DEWEY"

Supper and Banquet.

On Saturday evening, May 28, 8
p. m., at "Commodore Bozeo's
Headquarters" there will be given a
"Dewey supper and banquet" in
honor of the gallant and intrepid
defender of our country's flag, who
recently, in the most daring exploit
of the country, achieved the greatest
naval victory of ancient or modern
times, and in the enemy's own
country triumphantly hoisted the
stars and stripes.

On this festive occasion THE
BEST OF THE LAND will be
served in befitting style and manner,
and to all loyal subjects of Uncle
Samuel and true followers of the
"Red, White and Blue" who may
desire to participate, partake and
pay tribute to whom tribute is due, a
cordial, sincere invitation is hereby
extended to come, and see, and hear
the great American eagle scream.
Bozeo.

AS "KITCHEN FURNITURE."

Gibraltar, May 27.—Information
obtained here from a trustworthy
source says that a consignment of
forty Krupp guns, suitable for forts
or battleships, has been sent from
Essen, Germany, to Cadiz, and is
now on its way through Spain. It is
said the guns passed through the
German, French and Spanish custom
houses as "kitchen furniture."

HAWAIIAN QUESTION SHELVED.

Washington, May 27.—Speaker
Reed has given the word that the
Hawaiian question shall not be
brought up in the house this session.
Efforts to induce him to call for a
special rule have been futile. Mr.
Hitt of the house foreign committee
has practically abandoned the idea of
having the Newlands-Davis joint res-
olution considered.

The movement started a few days
ago to hold a caucus with a view of
having the speaker consent to the
bringing up of the resolution has fal-
len through.

Indications That the Wheat Crop
Will Aggregate 650,000-
000 Bushels.

All the Conditions Are Most Fav-
orable For This Vast Amer-
ican Crop.

Indications are that the wheat crop
of 1898 will be the greatest in the his-
tory of this country.

From figures that are being col-
lected and compiled by some of the
big Chicago firms, based on the re-
ports of experts in every section of
the country, the oncoming wheat
crop is estimated to exceed 650,000,-
000 bushels. All the conditions are
reported as being of the most favora-
ble nature, and while there is a de-
crease in the acreage the total yield
will be more than double that of
1897.

Kansas looms up as the banner
state this year, an increase of 28 per
cent. in the acreage having been re-
ported. Estimates on the yield vary
all the way from 70,000,000 to 100,-
000,000 bushels, while the combined
crop of Kansas, Nebraska and Okla-
homa is estimated at 160,000,000
bushels. Of this 30,000,000 to 40,-
000,000 bushels are credited to Okla-
homa, and Kansas will have 80,000,-
000 to 90,000,000 bushels.

As compared with the planting in
Illinois in the fall of 1896, there has
been a decrease of 16 per cent. in the
acreage, but in spite of this the condi-
tions in the Sucker state are about
the same as in Missouri, and the
apparent decrease in acreage is dis-
counted by the amount of wheat
that was plowed up in the spring of
last year. The 1897 crop in Illinois
amounted to little less than 100,000,000
bushels, whereas it is generally con-
ceded that this year's crop will be
nearly, if not fully, treble, or bet-
ween 25,000,000 and 30,000,000
bushels.

Texas will have a 20,000,000
bushel crop. Never before has the
wheat looked so fine in the Lone Star
state as it does now.

Indiana will come to the front with
a crop of 45,000,000 bushels. This
is nearly 17,000,000 bushels better
than last year's crop of 32,600,000
bushels, while the government re-
ports show a decrease of 2 per cent.
in the acreage planted this year. From
Iowa and Michigan the reports are
that the crops will probably be a
little better than they were last year.

Missouri had a crop last year of
14,000,000 bushels. This year ac-
cording to estimates, it will yield be-
tween 25,000,000 and 30,000,000
bushels.

In addition to this, all of the
Southern states show largely increas-
ed acreage, as do also California and
every one of the Eastern states. The
aggregate increase in the acreage
planted this year in the country at
large as compared with that of the
fall of 1896 is 5.7 per cent.—Louis-
ville Times.

Telephone Linemen Arrive With
the Wires—Are Making
Rapid Work.

Will in a Short Time Return to
Graves County, and Then Go
On to the Cairo Work.

The nineteen telephone men who
have been constructing the East
Tennessee Telephone company's line
from Hickory Grove to Paducah,
reached the city yesterday afternoon,
and are now in town. Ninth and
Trimbles streets were reached before
dark.

As soon as the wires are strung the
corps of workmen will leave by train
for Hickory Grove, to begin the con-
struction of a line from Hickory
Grove to Lowes. This will require
about three weeks, after which the
work to Cairo will begin, and which
will probably require five months or
more.

JOE SMITH'S CONDITION.

Mr. James Smith returned this
morning from Lexington, where he
went to be at the bedside of his
brother Joe, who left here with the
Paducah company and was taken
to the hospital with pneumonia. His
mother remained. He reports the
young man as in a dangerous con-
dition, he now having typhoid pneu-
monia. It is thought that he will
not be able to leave the hospital for
at least three months, if he recovers.

ARREST IN LIVINGSTON.

Jake Dorman, of Livingston coun-
ty, has been arrested. He was over-
powered by a posse of officers and
compelled to surrender. Dorman
had been wanted for several months
on a charge of raising a one-dollar
bill to a ten-dollar bill, and with pay-
ing his taxes with it. He always de-
fied the officers, and several times
fired on them when they went to ar-
rest him.

POSTAL DON'TS FOR THE PUBLIC.

Don't mail any letter until you are
sure that it is completely and properly
addressed.

Don't place the address so that
there will be no room for the post
mark.

Don't fail, in the hurry of business,
to write the name of the state you in-
tend and not your own—a very com-
mon error.

Don't fail to make certain that the
manner of writing the name of an of-
fice or state may not cause it to be
mistaken for one similar in appear-
ance. It is often better to write the
name of the state in full.

Don't fail, if you are in doubt as to
the right name of the office for
which your letter is intended, to con-
sult the Postal Guide, which any
postmaster will be pleased to show
you.

Don't fail to give the street and
house number of the person for whom
mail matter is intended in addressing
it to a city or large town.

Don't fail to place the stamp in the
upper right-hand corner.

Don't write on the envelope, "In
haste," "Care of Postmaster," etc.;
it does no good, and tends to con-
fusion in the rapid handling of mail
matter.

Don't fail to bear in mind that it
is unlawful to enclose matter of a
higher class in one that is lower,
e. g., merchandise in newspapers.

Don't mail any letter unless your
address, with a request to return, is
upon the face of the envelope, so that
in case of non-delivery it will be re-
turned directly to you.

Don't fail to give your correspond-
ents your full address, so that a new
postman cannot fail to find you.

Don't fail to notify your postmas-
ter of any change in your address,
either of location in the city or re-
moval to another city.

Don't trust to the fact that you are
an "old resident," "well known citi-
zen," etc., but have your letters ad-
dressed in full.

Don't fail, if you intend to be
away from home for any length of
time, to inform your postmaster
what disposition shall be made of
your mail.

Don't delay the delivery of any
mail matter that you may take out
for another.

Don't fail to sign your letters in
full, so that if they reach the Dead
Letter office they may be promptly
returned.

Don't, when you fail to receive an
expected letter, charge the postal ser-
vice with its loss until you have
learned from your correspondent all
the facts in regard to its mailing,
contents, etc.

Don't mail a parcel without pre-
viously weighing it to ascertain prop-
er amount of postage.

Don't wrap a parcel in such a
manner that the wrapper may become
separated from the contents.

Don't seal or wrap parcels in such
manner that their contents may not
easily be examined.

Don't mail parcels to foreign
countries without special inquiry con-
cerning the regulations governing
foreign addressed mail matter.

Don't attempt to send merchandise
to foreign countries, other than Cana-
da and Mexico, in execution of an
order or as a gift unless the postage
is prepaid at five cents per half-ounce.

Don't fail to put the address of the
sender on each parcel before mailing.
This to facilitate a return to the sender
in the event of non-delivery.

Don't send currency or coin in a
letter. Buy a money order.

Don't send packages of value by
ordinary mail. Pay eight cents ad-
ditional for registering.

Don't neglect to send to the Post-
master, the envelope of letters claim-
ed to have been delayed, or delivered
wrong, noting thereon the date and
hour received.

Don't forget, you expect the letter
carrier daily (except Sunday), each
trip regularly, be it hot or cold, rain
or shine; please receive mail from
him promptly; he is not allowed to
wait but a few moments. Receiving
boxes should be located conveniently,
in which carriers can deposit the mail,
especially in the resident districts.

Don't forget, the people have a
greater interest in the postal service
than in any other department of the
government, and through the efforts
of the public to meet the require-
ments of the same, the service can
be improved, and the public greatly
benefitted.

Don't fail to report to the post-
master or his assistant, any negli-
gence or incivility of any one of the
employees. They are required to be
courteous and attentive to all.

The City of Paducah will pass out of the Tennessee river for St. Louis this afternoon late.

The Clyde was still due out of the Tennessee river for St. Louis at noon today.

The Staggs left last night for Waterloo, Ala., and in addition to a big freight trip she carried a big crowd of round-trip excursionists, who will visit the National Park cemetery and the historic battlefield of Shiloh.

The towboat Monie Bauer went up the Cumberland river this morning after a tow of spoke timber.

The boats are having no little amount of trouble in getting their ties unloaded at Brooklyn. Some have been there for three weeks and have not as yet succeeded in getting cars to load into. Cars, as well as ties, are in great demand now. Capt. Baker said yesterday that ties are in greater demand now than for a number of years, and the railroads are securing all that are available.

The R. A. Speed leaves this afternoon for Perryville, after a big tow of ties.

WRITTEN AT RANDOM.

Miss Georgia McGrew, the well known artist, will have an exhibition of her work and that of her pupils tomorrow at her studio, over the American Express Co. Everybody is invited to call and inspect the work, which is excellent.

"I am something of a fatalist," remarked Dr. J. G. Brooks yesterday in discussing the war. "When I went into the army in the late unpleasantness, I fully expected to get killed. When a man picked up a paper and saw where thousands would be killed in one battle, and then join the army the next day, he wouldn't be inclined to think much of his life. That was the way with me. I went into the army with the full expectation of being killed. It wouldn't have surprised me a bit."

"But I never was scared in any battle. I guess that was because I didn't care whether I got killed or not. I realized my danger, but I didn't care a cent one way or the other, and knew I was as likely to be shot down as not, and if I did not I would simply be lucky. In other words I would be a few years ahead. I guess you've all felt that way."

"I thought if it was destined that I get killed, nothing on earth, above it or in the waters under the earth could save me. So I just took things easy, and came out all right."

"I remember one little incident that occurred during the fight here that always made me feel cynical, or that there is something in being a fatalist. There were two young men in our company, one of whom was Charles Younger, and the other Otto Rosencrans. Younger wasn't much of a fighter, but the other fellow was. You couldn't find a braver man anywhere."

"Well, before the battle, one man out of every four was selected to hold horses. We were counted out, and it fell to the lot of Rosencrans to hold a horse. This was considered a sort of snap, but Rosencrans didn't want it. He wanted to fight, and finally Younger, who was among those who had to fight, swapped places with him. Younger was stationed outside of town with his horse, and Rosencrans remained here with the soldiers. The former was killed by a shell before he had been out an hour, while Rosencrans fought all day and never received a scratch. The difference was that Younger was afraid and didn't want to get killed, while the other fellow didn't care whether he did or not."

A HERO OF THE NAVY.

Lieut. Young the Sole Survivor of the Warship Huron.

Lieut. Lucian Young, of the United States navy, is the sole survivor of the warship Huron, which was wrecked at Nag's head, off the coast of South Carolina November 24, 1877. The big man-of-war was swept onto the breakers during a terrible gale, and when she went to death, which made it the most disastrous accident in the history of the American navy.

In the height of the storm, Lieut. Young, an officer named Conway and the quartermaster risked their lives in a catamaran to carry a line to shore. The cigar-shaped boat was simply a toy in the boiling surf, but after swimming and pushing it the three men finally reached land. Notwithstanding their exhausted condition they broke into a life-saving station, manned a boat and succeeded in saving a few men. When the Huron went down Lieut. Young walked into the details to Washington. Naturally the news created a tremendous sensation, and Young was the hero of the hour. His native state, Kentucky, sent him a splendid sword in recognition of his services, and his congressional record is a shining one.

Lieut. Young is naturally a fighter, and some years later electrified Washington society by threatening to whip a well-known ambassador. The diplomat went to the navy department for certain official data, which he wished to send out on the next steamer. As a favor Lieut. Young volunteered to secure it, and when the matter was in shape went in search of the minister. Not finding him at the embassy or at his home, he hid himself to the club, thinking the importance of the affair warranted the intrusion. But the minister was furious.

"What do you mean, sir," he demanded, "by coming here? This isn't the place for business."

The discourses of three Youngs into a rage. He flung the papers into the face of the irate diplomat and vehemently promised him a thrashing if he would come out from the sacred precincts of the club. After a sharp verbal skirmish the men parted without coming to blows, but cordial relations were never restored, and the ambassador experienced a sense of personal safety when the big lieutenant retired to sea.—Chicago Chronicle.

A NEW BULLET.

Contrivance That Will Make War More Horrible.

The Montgomery (Ala.) Advertiser publishes a cut describing a new bullet invented by an American. The bullet is not explosive, and therefore is not forbidden by the law of nations. Here is the inventor's own account of its merits, but he does not mention the greatest of all, that "there is money in it."

My newly invented bullet is not an explosive bullet, and does not conflict with the law or agreement of nations. By cutting notches or grooves in the metal cover back from the point or apex to a point forward of the place of contact with the filling of the barrel, it allows the lead or filling of the cover to open or upset when striking a hard substance and gives all the effect of a bullet of larger caliber, breaking bones and tearing flesh. It is not impaired or exploded.

It may be said that my bullet, which maims so cruelly by "mushrooming" at the moment of contact with the body in which it enters, is a cruel invention, but, as other men have pointed out, the more terrible war is made the more we are to the millennium, for when armies are provided with science with killing appliances that are too deadly for anything to live before them, then the nations will be forced to banish war for ever.

The new bullet is also a humane invention from another point of view. To main one man so that he is put effectually out of the fight is surely a lesser evil to the fighters than to have the same missile wound three men so that they will be added to the list of injured, without being retired from the list of combatants.

In other words, it is more humane, in my opinion, to badly main one man than to half main three.

Furthermore, the battle will be sooner ended, for recent fights have shown that a man injured by one of the bullets that make a clean hole will frequently keep on fighting until compelled by loss of blood to give up, while the bullet that "mushrooms" puts him out of the fighting entirely. It is a grim way to view the matter, but I think it will be conceded to be the most humane when looked on calmly.

WOOD \$1000 WARD!

Mr. George W. Ward is in the wood business at the corner of Tenth and Trimble streets. He is well known to all, and will give satisfaction. All orders promptly filled.

COLORED DEPARTMENT.

The Willing Workers will give an entertainment at the First Ward Baptist church tomorrow evening. All are invited.

Mrs. Sadie Williams, of Murray, will preach at Burks' chapel, A. M. E. church, this evening. All are invited.

Rev. Schafer, of Illinois, is in the city, and is preaching at the First Ward Baptist church.

Rev. G. H. Burks will administer the divine ordinance of baptism to several candidates Sunday at the 11 o'clock service.

Rev. W. E. Glover has been invited to preach for Rev. I. N. Smith, of Bandana, at his Hinkleville church.

It is hardly possible that the pool can be put in at the Washington-street church by Sunday; if not, the baptizing will not be until the first Sunday, so we have been informed.

The demand for the Sun yesterday was very great; everybody knew it was moving. It is a household necessity.

Tickets are out for the coming commencement exercises at the opera house. Many of the pupils have them and are disposing of them at spare times after school hours. All the colored people in this county and city should begin now to prepare to attend these exercises, and show by their attendance and appreciation, their worthiness of the interest manifested in us.

The people should not be slow in purchasing tickets. If all the tickets could be sold several days before the evening of the exercises, so much the better. But this is hardly probable. We have the dangerous habit of putting off for tomorrow that which we could do today. So many will wait until the evening of the exercises before securing a ticket. But the old habit and old notion should be laid aside for this extra occasion, and every ticket should be bought, assuring in advance, our graduates, of the hearty welcome and appreciation they will, and justly should, receive at our hands. Have you bought a ticket?

MISS MAMIE O'NEAL

The inauguration of the Industrial fair last evening at the Old Fellows' hall, by the ladies of Burks' Chapel, was excellent in every respect. A very large crowd was present and everybody had a good time. The program was nicely arranged and well rendered. The exhibits were valuable and numerous. An even larger crowd is expected this evening. Refreshments were in abundance.

A very large crowd was attracted to the opening of Johnson & Lowe last evening, and it was a decided success.

Gen. O. O. Howard will deliver the memorial address at Berea College, Berea, Ky. Both the man and the place are of great interest.

Gen. Howard is one of the most distinguished survivors of the civil war. He lost an arm at Fair Oaks in 1862, but continued in the service, winning repeated promotions, selecting the Union position at Gettysburg, and holding the most important commands since the war, until his recent retirement on account of age. He is still young enough to make an eloquent address.—Commercial.

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed for ever, no case of deafness caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

A GOOD LADY GONE.

Death of Mrs. Joe Hart at Her Home Early This Morning.

Mrs. Joe Hart, after a lingering illness from cancer, died early this morning at her home 409 South Sixth street, aged 63. Her death removes one of Paducah's best known and most Christian like ladies. She first became a victim of cancer from a fall, sustained a few years ago, and her death had been expected for several weeks.

The deceased had resided in Paducah about 45 years, and was a relative of the late Joseph Hart, brother of Capt. Geo. O. Hart.

Mrs. Hart leaves to mourn her loss five children, Mrs. Jas. Cook, Misses Ila and Mittie Hart, and Messrs. Tom and Ed Hart.

The funeral will take place tomorrow morning at 10 o'clock at the residence, services by Rev. Cave, interment at Oak Grove.

The pall bearers will be Messrs. L. S. DuBois, L. M. Rieke, S. H. Winstead, Geo. Langstaff, Sr., E. Rehkopf, J. L. Bethshares, R. G. Caldwell and T. A. Baker.

CITY NOTES.

Assistant Engineer Lyon Arrives and Goes to Work at His Job.

Several Communications Are Received at Headquarters of An Interesting Nature.

Assistant Engineer Lyon arrived this morning from Jacksonville, Fla., and went to work at once. He was warmly greeted by his many friends here, and was pleased to return to Paducah, which he had made his home for several months.

Mayor Lang today received a letter from Wilkins & Bradburn, of Bowling Green, making inquiry relative to whether corporations are required to execute bond here. They are not.

The Kentucky Manufacturer and Trader, of Covington, is the name of a magazine that is published in the interest of the state. It writes here that if the people will subscribe \$20,000 to an industry requiring \$20,000 additional, it will guarantee the city the plant. No action had been taken.

Mayor Lang is in receipt of a letter from Richard Humphreys, of Milwaukee, asking for a description of the tramp shoved off the train by Joe Mitchell, the brakeman hanged at Rives, Tenn. The clipping he saw was in a Chicago paper, and did not give the name of the tramp.

As will be seen from a card elsewhere Marshal Collins will enforce the dog law, beginning at once. Boys will be paid for all dogs delivered at the city pound, and extra men will be employed to assist. This is Mayor Lang's first effort to enforce the dog law, and he intends that all shall pay license who have dogs. The tax is \$2.50 on females and \$1.50 for males. The tags cost extra, and are different in size and shape from any used heretofore. All dogs not called for will be drowned. There are about 600 licensed dogs in the city, and it is expected many more will be found this year, and a considerable revenue will result to the city.

Judge Sanders had an exciting time on Second street this morning. He went down to market rather early, and while there was besieged by a crowd of denizens of that street, some of whom were mixed up in a case in which a warrant was issued the day before. Each insisted on stopping the judge and relating his or her side of the case, and finally they came near starting something else. The judge insisted it was no place to hold court, and escaped.

POLICE COURT.

There Were Few Cases This Morning Before Judge Sanders.

Another Horse Case Dismissed. Other Proceedings of the Court of the Usual Nature.

John Perry, a colored roustier, was charged with stealing from Had Martin, an employee of the N. C. & St. L., a suit of clothes, a hat, a pair of shoes and 50 cents were stolen, and Perry confessed. He was held to answer and in default of bond was remanded for house breaking.

There was a case before Judge Sanders this morning against Mrs. Trammel, late of Metropolis, and Nora Foot, charging them with running a disorderly house. The latter had not been arrested, and the case against the other was continued until tomorrow.

The case against Mr. Courtney Long for allowing his horse to run at large, was dismissed, as he testified that he did not turn the animal out, and did not know who did. The evidence showed the horse got out.

Mrs. A. Maroffsky pleaded to spitting on Mrs. Ike Antman, and calling her names. She was fined \$5 and costs.

HOSPITAL STeward.

Dr. Lillard Sanders Leaves to Accept This Appointment.

Dr. Lillard Sanders, one of Paducah's best known young physicians, today received the appointment of chief hospital steward of the Third Kentucky regiment, and leaves tonight at 1:30 o'clock for Lexington to join the boys.

He was appointed by Dr. Frank Boyd, chief surgeon of the regiment, who is a good friend of Dr. Sanders, and who knows the young man's ability.

Dr. Sanders has been a practitioner here since he graduated at Chicago several months ago, and his many friends who will regret to see him leave, but who will wish his success. He is a son of Dr. W. H. Sanders, of Arcadia.

OF CONSUMPTION.

Death of John Brady in the Hospital Last Night.

John Brady, an employee of the Illinois Central, died in the hospital here last night of consumption after a lengthy illness. He was 63 years old, and had been here the last time about five days. He was here about a month ago, but returned to Memphis. The remains were shipped to Memphis this afternoon. The hospital authorities say there was nothing mysterious about the death, as a contemporary intimated. The reporter rang up about 2:30 o'clock in the morning and began firing in questions at the rate of 100 a minute. The nurse, who among others had been kept up all night, hung up the phone to keep from being talked to death.

WILL PROBABLY DIE.

"Doctor" Henry Smith, the colored doctor recently pardoned by Gov. Bradley after being sentenced to the penitentiary for three years for stealing \$700 from his son, is reported to be in a dangerous condition at his home on Washington street. Mayor Lang was today notified that the old man was in need of attention, as his people seem to have abandoned him.

GRAVEL NOTICE.

Sealed proposals will be received at the council clerk's office until 12 o'clock, noon, Monday, June 6, '98, to furnish screened gravel for street repairs during the year 1898.

Bids may be submitted two ways, viz: Price per yard delivered at a convenient point in the city, and price per yard delivered where needed on the streets. All gravel must conform to the provisions of the ordinance governing same. The city reserves the right to reject any or all bids. Bond will be required of contractor.

MEETING WITH SUCCESS.

Every wholesale and manufacturing center has a paper that represents these interests, and the well established basis upon which these papers are working and the splendid success that has crowned their efforts, shows that they are appreciated and are of great value to the trade. The Paducah Progress will leave nothing undone that will tend to build up the industrial and commercial interests of Paducah. It will be devoted to the cause of the wholesalers and manufacturers, to building up their trade and making Paducah a larger city. The Progress will be printed and edited in a style that will make every Paducahan pleased to see it as a medium to advertise abroad the importance of their home city as a great trade center. The plan upon which Messrs. Thompson & Shutt take subscriptions to their paper has so far met with the approval all they have broached upon the subject. They have as yet only seen the firms representing one branch of the manufacturing interests, and have been given substantial encouragement and support by all.

MRS. STANLEY IMPROVING.

Mrs. Lee Stanley, who was shot Monday by an unknown negro, is rapidly improving, and will soon, from indications, be out again.

Nothing has been heard of her assailant, and day by day the conviction becomes stronger that he has escaped.
